Profile

I have Completed Master Computer Application. Strong knowledge of programming, web development, and computer fundamentals. Quick learner with excellent problem-solving skills and the ability to adapt to new tools and technologies. Seeking an opportunity to begin my career and contribute to organizational growth with dedication and a positive attitude.

Key Skills

- **Core Java:** OOPs concepts - Inheritance, Polymorphism, Encapsulation & Abstraction.
- Understanding of the **Software Development** Java development with OOPs concept.
- **Automation Testing:** Selenium WebDriver using Java.
- **Frontend Development:** React JS (Components, JSX, Hooks).
- **Bug Tracking & Test Management:** JIRA.

Project

Online Gym Portal (Web base Application).

Developed a web-based application for gym owners to manage and showcase gym details. Implemented features to display gym information, machines, trainers, and monthly membership packages. Enabled gym owners to add, update, and delete gym packages and trainer details. Implemented user management and attendance tracking functionality. Developed user features for profile creation, viewing gym facilities, and booking membership packages. Improved gym service visibility and digital presence through an online management system.

Technology Used: Node Js, React Js, HTML, CSS, Bootstrap, MySQL.

Education
